

UNIL is a leading international teaching and research institution, with over 5,000 employees and 15,500 students split between its Dorigny campus, CHUV and Epalinges. UNIL and CHUV encourage excellence, individual recognition and responsibility.

The Faculty of Biology and Medicine ([FBM](#)) and the Lausanne University Hospital ([CHUV](#)) are inviting applications for a position of:

**Associate Professor
at the Institute for Higher Education and Research in Health Care –(IUFRS)**

Starting date: August 2022 or to be agreed

Place: Lausanne, Switzerland

Excellence in health care education and research constitutes the core mission of the [IUFRS](#). In its areas of expertise – nursing and health sciences – the Institute offers state of the art education at master's and doctoral level and conducts internationally renowned research. Thereby, it aims at educating and developing nursing and other health professional talent at university-level that is well prepared for key roles in practice, education and research. In all its endeavours, IUFRS puts safety and quality of care for patients, families and relatives centre stage and assumes evidence-based nursing practice and scientific rigour as foundational principles.

The successful candidate will be in charge of one of IUFRS' Master's programmes and will work closely with the directorate to ensure an effective management and efficient functioning of the institute.

Desired profile:

- PhD in nursing science
- Experience and strong interest in teaching (2nd and 3rd cycle) as well as in continuing education
- Research program ideally focusing on one of the following domains: **Care for the elderly** or **Quality of Care and Patient Safety** or **Chronic disease management** or **Development and implementation of advanced practice roles**.
- Excellent quantitative and qualitative research skills;
- Successful management of several large-scale research projects;
- Evidenced record in raising third-party research funds;
- Strong publication record in refereed journals and other research dissemination activities;
- Interest in interdisciplinary research and interprofessional collaboration;
- Excellent knowledge of the Swiss health care system at cantonal and national level;
- Good knowledge of French and English (LM or minimum B2, C1 ideal) or ability to acquire it quickly.

Further information can be obtained from Prof Manuela Eicher, Director of the IUFRS (manuela.eicher@chuv.ch) for any queries you might have.

Applications, in English, will include a motivation letter, a curriculum vitae, a copy of the five most relevant publications, as well as names and contact information of three referees, a brief statement of research interests and teaching experience and a copy of diplomas. They should be submitted online by **February 20th, 2022 (23:59 GMT+1)** to www.fbm.unil.ch/releve/application/ as a single PDF file.

The job description is available on [the same link](#) (or QR code).

We offer a pleasant working atmosphere in a multicultural, diverse and dynamic academic environment. There are possibilities for continuing professional training and a multitude of activities and other benefits to discover.

UNIL and CHUV are committed to promoting gender equality and diversity and strongly encourage applications from female candidates. www.unil.ch/egalite
