

UNIL is a leading international teaching and research institution, with over 5,000 employees and 15,500 students split between its Dorigny campus, CHUV and Epalinges. UNIL and CHUV encourage excellence, individual recognition, and responsibility.

The Faculty of Biology and Medicine ([FBM](#)) and the Lausanne University Hospital ([CHUV](#)) are inviting applications for a position of:

Senior Lecturer (MER1) at the Institute for Higher Education and Research in Health Care – IUFRS

Starting date: 1st of August 2023 or to be agreed

Place: Lausanne, Switzerland

Excellence in health care education and research constitutes the core mission of [IUFRS](#). In its areas of expertise – nursing and health sciences – the Institute offers state of the art education at master's and doctoral level and conducts internationally renowned research. Thereby, it aims at training and developing nursing talent at university-level that is well prepared for key roles in practice, education and research. In all its endeavors, IUFRS puts safety and quality of care for patients, families and relatives center stage and assumes evidence-based nursing practice and scientific rigor as foundational principles.

The main missions:

- Be active in IUFRS' Master of Science in Advanced Nursing Practice program, (specifically dedicated to the training and education of future nurse practitioners) in close collaboration with the vice-director of education to guarantee the alignment with strategy and operations of the school.

Desired profile:

- Doctoral degree in Nursing Science (PhD) or in other fields of Health Sciences.
- Teaching experience and strong interest teaching on a postgraduate level, in particular in the Master of Science in Advanced Nursing Practice program.
- Experience in supervising or co-supervising master and doctoral thesis
- Research program oriented towards patient- and family-oriented care, ideally with interdisciplinary approaches
- Advanced competencies in quantitative and qualitative research
- Promising track record in leading independent research, or participation in funded research projects or research programs
- Promising track record in peer reviewed publications
- Marked interest for nursing science and ability to work interdisciplinary
- Proficiency in French (level at least B2, C1 ideally or ability to acquire it quickly), proficiency in English (C1), good knowledge of German would be an asset.

Further information may be obtained from Prof. Manuela Eicher (manuela.eicher@chuv.ch), Director of the IUFRS.

Applications, in English, should include i) a motivation letter, ii) a curriculum vitae, iii) a list of publications highlighting the five most significant ones, iv) a brief statement (5 pages max.) of the past and future research, v) a summary of previous teaching experience (if applicable), vi) and the names and contact information of at least three references, vii) a copy of diplomas, and viii) a valid identity card.

They should be submitted online by **23rd February 2023 (23:59 GMT+1)** to https://www.fbm.unil.ch/releve/application/annonce/list_all as a single PDF file.

The job description is available on [the same link](#) (or QR code).

We offer a pleasant working atmosphere in a multicultural, diverse and dynamic academic environment. There are possibilities for continuing professional education and a multitude of activities and other benefits to discover.

UNIL and CHUV are committed to promoting gender equality and diversity and strongly encourage applications from female candidates.
